## REPORT OF DIRECTOR AND SCHOOL IMPROVEMENT COUNCIL

The Mission of the Marion County Technical Education Center is to ensure that students of all ages will acquire skills for a changing global workforce by providing a program of study in a safe, modern learning environment. MCTEC serves the three Marion County public high schools and several private schools while the Marion County School of Practical Nursing serves adult students. Technical programs offered during 2011-2012 were Auto Collision Repair Technology, Automotive Technology, Construction Trades, Cosmetology, Culinary Arts, Entertainment Technology, Health Science, Nail Technology and Practical Nursing. Students were encouraged to participate in student organizations related to their programs. Chapters of HOSA, FIRST, ProStart and SkillsUSA provided opportunities for leadership and competition on the local, state, and national level. Four Health Science students earned the honor of representing South Carolina in competition at the HOSA National Conference in Orlando, Florida. Competencies and skills required for entry-level employment were emphasized in all programs. Students had opportunities to participate in school-to-work activities including internships, service-learning projects, and school-based enterprises. Opportunities for professional staff development including courses, workshops, seminars, and conferences were provided for all faculty and staff members. MCTEC serves the community by collaborating with higher education and the private sector and is a training center for the enhancement of economic. Florence-Darlington Technical College and Coker College utilize the MCTEC facilities to offer college-level courses for Marion County adults.

Students were recognized for their excellence in performance with certificates and medallions. The Renaissance Journey, a year-long incentive program for improving school performance, concluded its eleventh year. Students who earned points through achievement, attendance, community service, and professionalism were eligible to win a Jeep Grand Cherokee, which was acquired by the school and repaired by Automotive Technology and Auto Collision Repair Technology students. Over 225 students earned points, were eligible to win, and were entered into a random drawing. The Jeep was won by a lucky Entertainment Technology student on May 10, 2012. Engineers continued their partnership with Marion County students to design and build a robot and compete in the F.I.R.S.T. Robotics Palmetto Regional Competition in Charleston, SC. Sixty-seven high school students completed programs and were recognized at an achievement/completion ceremony on May 10, 2012. Twenty adult students graduated from the Marion County School of Practical Nursing on May 23, 2012.

The School Renewal Plan covers a five-year period through school year 2013. Teams of stakeholders are continuing to implement the Renewal Plan, which in part targets marketing MCTEC as a necessary component of education in Marion County. Progress continues in facility improvement, another area targeted in the Renewal Plan. Recently completed projects include replacing lighting with new energy-saving fixtures throughout the buildings, reproofing one of the buildings and increasing school security with fences, gates and additional cameras. Future projects include reroofing of the original building and the installation of a security entrance door. We are proud of our past and the accomplishments of our students but are constantly looking to the future and how better to serve Marion County through career and technical education.
